Veteran-owned business*

Global War on Terror

The Challenge. The GWOT has changed the face of the U.S. military training. Reserve and National Guard units are being called upon to perform missions that were never previously envisioned. From armed checkpoints to convoy duty. From POW handling to PSD duty, our citizen soldiers are being tasked with missions which have previously been the purview of the regular forces. Deployments are over a year long with just a few short months to “train up” the troops. Commanders and training officers are faced with providing the most state of the art, up to date training available. Unfortunately there is often neither the budget nor available slots to prepare our soldiers, sailors, airmen and Marines.

The Edge. C4i instructors have been instructors at some of the most prestigious schools in the military. All C4i instructors are combat veterans of the GWOT on terror and are using their training and experiences to prepare others. Using standard military training guidelines and outlines, C4i instructors bring training from the best military schools, down to the unit level.

C4i Training Services courses are not "canned" and forced to fit the client. Each project is subjectively approached with the goal of delivering the greatest benefit to our client.

“It is to date one of the best training courses I have received.” -Sgt., WA State Police
“Mr. Kohler is a complete professional. Able to add value at every level, I could not recommend him higher” - Officer, Royal Irish Regiment

C4i Services Military Instructors
